V  Blue Vervain (4)  Verbena hastata
Z  Heart-leafed Alexander (Zizia) (12)  Zizia aptera

Total: 85 plants
Advantages of planting a perennial native garden bed:

- After the initial planting cost, this garden is far more sustainable and lower maintenance than traditional gardens.
- This garden is environmentally friendly.
- This garden restores native habitat to pollinators.
- This garden requires no pesticides, reducing harmful chemicals.
